As you may know, we represent families that benefit from an attentive, holistic approach to wealth management. We care for our clients, which is why we’re reaching out to offer you something for the people you care about — a second opinion.

Our Second-Opinion Service is the time-tested process we use to determine where your loved ones are now and where they would like to go by analyzing their financial situations and identifying any gaps that need to be filled. It never hurts to know more, and we want to help the ones you care about make informed decisions.

Why now? We’ve never seen so much money in motion or so many people wanting someone to “check under the hood” of their financial plans. There’s a lot of uncertainty in today’s world, and we want to help make sure the people we work with have peace of mind knowing they’re on the right path.

THREE POTENTIAL OUTCOMES:
1. We find they are in good shape and advise them to stay where they are.
2. We find they could improve their situation. If we’re not a fit for their particular needs or personalities, we’d be happy to point them in the right direction to an advisor who can work with them more effectively.
3. We find gaps in their current plan and feel we could provide a significant advantage in helping them reach their goals. We would then explore the idea of working together with them.

Which of the people you care about most would benefit from a second opinion? Give us a call — we’re here to help.
